## TECHNICAL SKILLS

### Programming Languages

- Javascript
- C
- Java
- Python

### Database Management

- MySQL
- Firebase
- MongoDB

### Softwares and Tools

- Git & Github
- Visual Studio Code
- Thunderclient
- Nodejs
- Star UML
- Figma
- Docker

### Frameworks

- React
- Express.js
- Django
- Flask

### Courses And Certificate

- [Database Programming With SQL - Oracle Academy](#)
- [Database Programming With PLSQL - Oracle Academy](#)
- [Python-Hackerrank](#)
- [MongoDB Basics - MongoDB](#)
- [Software Testing - NPTEL](#)

A dynamic and self-driven technology enthusiast, driven by an insatiable passion and curiosity to explore diverse domains and constantly evolve in a collaborative environment.

## EDUCATION

B.E Computer Science Expected- May 2026  
Rajalakshmi Engineering College CGPA - 8.33 (till Sem 3)

Higher Secondary Education - Computer and Mathematics March 2022  
Velammal Residential School, Ladanaendal - 95%

Seconday Education March 2020  
Velammal Residential School, Ladanaendal - 94%

## EXPERIENCE

### Board Member - DEVS REC

Rajalakshmi Engineering College | 2023 - 24

- Engaged board member contributing to event organization, volunteer coordination, and creative ideation, fostering collaborative environments and driving impactful initiatives

## PROJECTS

- **REC Companion** - Contributed as a full-stack developer to a collaborative PWA project for college students under DEVS REC, integrating features from viewing grades to bus schedules. Gained exposure to diverse technologies under senior mentorship

**Technologies Used : MySQL, Flask, Nginx, Docker, React**

- **Sync Play** - Developed a groundbreaking web application enabling seamless porting of local playlists to Spotify, catering to both personal and public usage. Pioneered the first-ever solution of its kind with a focus on user convenience.

**Technologies Used : React, Spotify API**

- **LRC Get** - Built a web app fetching synced and unsynced lyrics from public APIs using Spotify links, enhancing song exploration and enjoyment

**Technologies Used : React, Spotify API, Lrclib**

- **REC Catlog** - Developed a college web app facilitating student access to view and share study materials, including notes, question papers, and other resources.

**Technologies Used : React, Nodejs, Express.js, MongoDB**

- **REC 404** - This web app empowers students to efficiently report lost and found items within the college community.

**Technologies Used : React, Nodejs, Express.js, MongoDB**

## AWARDS AND ACHIEVEMENTS

- **Code Relay** - Winner (Conducted by Dept. of CSE, REC during Techathon)
- **Hackmageddon Ch-0** - Finalist (Hackathon conducted by Dept. of CSE, REC.)
- **Webdev Contest** - Winner (Web-Design contest initiated by DEVS REC to find an official website)
- **Clone Quest** - Winner (Website cloning competition held by Dept. of CSD, REC during their first symposium)
- **Project Head** - Selected as Project Head for DEVS Club (next term)
